

June 18, 1979

Dear Dr. Lederberg,

This letter is long overdue but I still want to thank you for that very special day on June 7th at the Rockefeller University. What an exciting and brilliant group of people you work with.

From a non-scientist's point-of-view I found myself intrigued, awed and immensely interested in all that went on. Plus it was exciting to have a chance to talk with some of the people during the various breaks.

I particularly enjoyed having lunch
with you and I do hope we can have
another such opportunity in the future.
I have enclosed herein an article by
Norman Cousins describing his experience
with self-healing which you seemed interested
in. His method was 3-fold: belief in
his capabilities, massive doses of V.I.C
(25 gr/day) and daily laughter. If you
would like to write him, his address is:
2859 Slichter Hall, Univ. of California,
Los Angeles, CA 90024 (tel. 213 825-9705)

Thank you again for inviting me to a
most splendid day. You're always welcome
to a visit here too if ever you get the chance. ↴
Best Wishes, Elan Kochan
